The Week's Business and the Outlook, as Reported by R. G. Dun & Co. New York, Aug. 27.—R. G. Dun & Co.'s weekly review of trade says; Co.'s weekly review of trade says:
In all aspects the business situation 'appears more favorable than a week ago. There has been general though moderate improvement in distribution manufacturors are more fully employed; several great labor controversies: have ended, and crop reports are somewhat more satisfactory. A little more gold has gone abroad and imports of merchandles are still enormous, for three works at New York still enormous, for three works at New York, the increase for the three works as near year; while in exports from New York, the increase for the three works is only about \$Q\_{per}\$ cont. larger than the same work's last year event; but the shipments last year were phonomenal, and it is encouraging that they are not diminished. Excess of imports over experts continue later in the senson than usual, but money markets are so well supplied that some outgo of gold causes no disturbance or apprehension. Moderate experts and better crop reports lead to lower prices. Wheat receipts at the west in four days of this week have been 5,295,035 tushels, while Atlantic experts have been 5,295,035 tushels, while Atlantic experts have been 6,295,035 tushels, while Atlantic experts have been cally 1,473,085 bushels. advance in price, and since the leases were made prices have advanced about \$1 per ton on the average. The woolen manufacturers are crowded with work, and sales of heavy weights for the season are thought to have been never exceeded. More life is seen in outton, with decided improvement in American demands, and print cloths are strong, with works covering April productions. Hoslery is quiet, but very active, and the carpet trade good, with prices on the whole as low as ever. Seles of wool at the onlef markets have been large for the wook, but as stocks are very heavy sollers are somewhat more free. The boot and shee trade is in volume greater than ever, theugh competition from new works is sharp. The stock market \$2 davanced quits strongly during most of the week, in the face of time strikes on the railreads centoring at Buffalo, but has been weaker since those strikes were officially declared at an end. The decision against the ooal combination will doubtless affect some stocks, but money is abundant, western and southern markets being generally well supplied, and the treasury has put out \$2,50,000 more entroncy during the week, while adding outy \$40,000 to its specie. The outgo of money to the west and south is thus far of smaller proportions than usual.

The business failures occurring throughout the country during the last seven days, number, for the United States, 185, and for Canada hi, or a total of 180, as compared with 187 last week, 198 for the week provious to the last and 226 for the corrosponding week of last year. Last night Mayor Chambers, J. E. Bering, Peter Loeb, D. S. Shellabarger, Engineer Burgess, and Aldermen Shade, Bramble, Montgomery, Ferguson, See-Bramble, Montgemery, Ferguson, Seeforth, Head and Holman arrived home from Quincy, which city they visited yesterday to inspect the Jewell filter in use there. The party was received by Mr. Jewell and afforded every possible opportunity to inspect the filter and recervoir. It was voted that the Jewell filter is a jewell, start to finish, and just the thing Decentir ought to have; but it will cost something like \$30,000 to possess it. The party was dined at the Newcomb House, and were then given a ride in a "apocial" over the railway system. They visited the Soldiers' Home.

A report will be submitted to the city council, and ere long in doubt steps will be taken to give Decatur a good filter. Mayor Chambers is doing his best to get the preliminary work done, so that the council can set intelligently and wisely Give us a filter.

This morning when Earnest and his wife awake they discovered that a birglar had entered while they slept and had robbed the place. The thief used a step ladder to result the second-story open window with a cotton scroen in place. The screen was ent away, and the robber slipped into the room. Earnest on retiring had placed all his cash, \$67, in a roll under his pillow. The money was stolen, as was also a \$50 gold watch, an \$8 chain and a \$2 beer-keg charm, which articles were lying on a dre-ser. Mrs. Earnest's gold watch was not taken, neither was a sliver witch belonging to Mrs. Daniel, ester of Mrs. Earnest, who lately arrived from Gerwhen Earnest and his wife awoke they longing to Mrs. Daniel, sester of Mrs. Earnest, who lately arrived from Gerlany. Mrs. Earnest was the first to note the robbery. Two chairs had been placed against the stairway door by the burglar on leaving the room so that if the occupants awoke they could be impeded in purening him. This morning Mr. Earnest found his pantaloons in the weeds in the yard. There was no money in the pockets, only the keys to the saloon, which for some strange reseen the thief did not use to help himself to liquor and cigars. Possibly he was satisfied with the \$67 and the watch. This morning Mr. Earnest left the saloon in charge of his wite while he came up town to inform Marshal Mason that he had been robbed. THE INTRIDOMEN ROBBRY.

The home of Ald. H. W. Bartholomew on North Main street was entered by a borghar yester-lay morning at about 4 o'clock, and the thick helped himself to all be could find in the limited time he had at his disposal. He stole a lady's gold watch, with button book charm; a gold har pin with diamond set; a pair of rosette earrings; a child's gold necklace with haby ring, and torrquoise setting; a child's gold ring, a lady's gold ring, a gold thimble; a coin necklace; a gold piece; a gold dollar, a bracelet of dimes, a solid gold bracelet, and handkeromets. Entrance was effected by prying open a window on the north side. The thick had attempted to enter the residence hitely occupied by Theo Nolson, but 'falling in that he turned his attention to the Bartholomew place. He failed to the Bartholomew place. He failed to find many articles of value, one of which was a child's bank containing about \$40 in coin. It was in the oleset. Solid gold stants and a valuable diamond ring were left behind. Mrs. Bartholomew heard a noise in the room, like the opening of dresser drawers. She supposed husband was in the room, like the opening of his proposed husband was the room, and she called ont saking him what he was doing. Just then the burglar fled, slamming the door behind him. Mr. Bartholomew was then awakened, when he got up hastily to discover that a robber had been in the house.

Capture of The Burglars.

This morning Marshal Mason had the police watching various points in the city, and while he himself was on the alert be got a good pointer from Hardy Wallace about two suspicious parties who for nearly two weeks have been occupying a room at the Mrs. McGinness place at 507 East William street. It was stated that the two strangers had been known to be out late at night, and that they slept all day in their rooms. Some powelry answer-235 North Water street. 24-dis

Improvements.

The store room compied by Ed. Denz & Son, tailors, and E. Post, jeweler, on Merchant street, has been refitted and refurelshed in trilly artistic style. The tailoring shop, which formerly coempied the rear portion of the atore room, has been moved to the account floor, thus providing norse room, light and ventilation on the ground floor.

The store binkding coupied by W. E. Jacobs, the well-known douth Webster street grocer, is being enlarged and a second ctory built. The improvement will cost about \$3500 when completed.

THE SEARCH.

Robert Timmons to Joseph T. Timmons, deed to lot 2, block 1, Webb's addition to Macon; \$250.

Caroline M. Powers to Belle Acom, deed to lots 16 and 16, block 2, Powers Fourth addition; \$700.

Anna A. Shelley to B. T. Jameson, deed to lot 28, block 4, Enterprise addition; \$350.

Caroline M. Powers to Georgo (t. Harnsbarger, deed to lots 17 and 18, block 2, Powers' Fourth addition; \$700. The officers at once searched the room.

STOLEN GOODS FOUND. The prisoners gave their names as Charles Miller and Tom Francis. At the police headquarters Mason and Brookway went through the valles, and found nearly every article of jewelry rolen from the Bartholomew residence, incind-

way want through the valiee, and found nearly every article of jewelry rtolen from the Bartholomew residence, inoinding the gold watch and necklaces, rings etc. Only Lena Nelson's silver watch is missing. In the value was also found the Masonic charm, and a ring stolen from the home of Mrs. J. O. Fish last Studday morning. That hady lost a \$100 diamond ring. It was found in the lining of the last worn by Miller. It was wrapped in tissue paper. All of the property stolen from Mrs. Fish, valued at \$160, is recovered.

It is learned that the prisoners pawned a revolver at White's place yesterday. They had a revolver in the value, besides a full set of burglar tools. When arrested the prisoners made no attempt at resistance, and did not have anything to say on the way to juil. They look and act like professionals. Neither is over 25 years of age.

At the McGinnise place it is learned that Miller and Francis came there nearly two weeks ago, and paid for the room for two weeks in advance. They represented themselves as printers, and said they would be out late working on morning newspapers; but there are no strange printers in the city by the names of Miller and Francis. They had but little to say at the louse, and no suspicions were aroused until the baby rings were found.

Friday morning John Ultrich, who arces at 3 o'clock to go to Quincy with the city conneil committee, observed a man standing in the yard at the Jesse Lefergee residence on West Macon street. Mr. Ullrich made a noise as he approached, whereupon he heard a peculiar alarm which was answered, when the stranger fled. It was Mr. Ullrich's opinion that the stranger was a burglar on the watch for danger.

The prompt arrest of the robbers, against whom there is a plain case of guilt, will be learned with pleasure by the people generally.

Commercial Telegraphers' Prote

KANSAS CITY, Mo., Aug. 27.—At th neeting of commercial telegraphers which is to be held in Kansas City eptember 2, a new protective associ tion, to be known as the Commercia Telegraphers' Association of the United States, will be organized. The meet ing will be held pursuant to a call is sued by the committee, which for some time has been agitating the formation of such an order. The association will be a secret society and two degrees will be conformed. The first degree is to be called the uniformed rank, and will be enferred after one year's good stand conserved after one year's good standing, The second degree will be conferred after ten years' good standing and will be called the mystic degree. There will be a sick and death fund. The association will also seek to protect tself against any sweeping reduction

Itself against any sweeping reductions in wages by telegraph corporations. The organizors have been active, and correspondence has been going on for some months past. Local unions have been forming in all the large cities, and there will be representatives of operators here from Philadulphia, New York, Boston, Jorsey City, Richmond, Nashville, New Orleans, Cincinnati, St. Lonis, Baltimore, Pittsburgh and Chicago. The convention will commission six organizers, who will give their ends organizers, who will give their en

Among the local telegraphers there great scereey and little can be asce-ained of their plans. It is very probble that the convention will be at Kan sas City in name only and that the ses-sion will be held in some suburban town. The cause of the whole agitation is said to be the gradual encroach ments of the Western Union upon the wages of its operators.

Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROOK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.
